### **Manufacturer's Declaration**

Tracking:

Date:

The enclosed shipment contains non-restricted, time-sensitive canine material. In accordance with CDC guidelines and USDA Guidelines for Importation: #1102 Canine Material, neither CDC nor USDA import permits are required because I can verify the following statements to be true.

1. Origin: Manufacturer

Type of Packaging: Unused swab encased in a sealed covering in a box.

Composition: 20% swab, 25% return envelope, 25% cardboard inserts, 25% outer cardboard box, 5% stabilizing liquid composed of Glycine, N,N'-trans-1,2-cyclohexanediybis[N-(carboxymethyl)-, hydrate

2. The materials in this shipment are canine samples (tissue or blood) that are non-restricted, non-infectious specimens for diagnostic purposes. Sample does not contain any infectious agents of human or agricultural concern. It is exempt from CDC, USDA, and USF&W import controls. These materials do not contain any other animal-derived material (i.e., does not contain any livestock or poultry origin material). This material was not derived from canine species which were inoculated with or exposed to any infectious agents of USDA agricultural concerns.

3. End-Use: Swab dog mouth for DNA
